One who wants to get joy of book reading especially in very less time can go for it. About the Book SIR HUMPHRY DAVY Humphry Davy, the celebrated natural philosopher, was born Dec. 17, 1778, at Penzance, England. At the age of seventeen he became an apothecarys apprentice, and at the age of nineteen assistant at Dr. Beddoess pneumatic institution at Bristol. During researches at the pneumatic institution he discovered the physiological effects of laughing gas, and made so considerable a reputation as a chemist that at the age of twenty-two he was appointed lecturer, and a year later professor, at the Royal Institution. For ten years, from 1803, he was engaged in agricultural researches, and in 1813 published his Elements of Agricultural Chemistry. During the same decade he conducted important investigations into the nature of chemical combination, and succeeded in...
